

WHOLEhealth

RACHEL D. WILSON
Family Nurse Practitioner

Be seen. Be heard. Be known.

ARE YOU STRUGGLING WITH THE RISING COST OF EMPLOYEE HEALTH CARE?

As a Direct Primary Care practice, WHOLEhealth offers your employees top notch health services while saving your business time and money. Show your employees you care and give them access to primary care services you neever knew you could afford!

WHAT IS DIRECT PRIMARY CARE?

Direct Primary Care (DPC) is a direct relationship between a patient and their provider. This relationship removes the middleman of insurance, which means no co-pays, no deductibles and no hidden fees. Medical services are provided at a low fixed monthly rate and include:

- o Same or next day visits
- o No co-pay, co-insurance or deductible
- o More time with the Nurse Practitioner
- o Less waiting
- o Care when you need it, even outside normal business hours
- o 24/7 direct communciation for acute issues
- o Labs and radiology at significantly discounted prices
- o Many in-office tests for free
- o Deep discounts on medications
- o Manageable monthly payments
- o Less paperwork, no insurance forms
- o 30-60 minute appointments
- o Free telemedicine
- o Most procedures free, others deeply discounted
- o Health problems can be addressed before becoming major and costly

MEMBERSHIP PRICING

5-40 business members: \$80/mo
Spouses: \$80/mo
Dependents: \$10/mo

HOW DOES IT WORK?

By combining DPC with a high deductible plan of your choice, or with a self/level/partially funded plan, and by restructuring your health insurance, you could save 20-50%. Plus the daily cost of medical services cost less than a cup of coffee per day. If you decide it's not right for you and your employees, it's easy to go back to traditional healthcare but we don't think you'll want to!

WHY SHOULD EMPLOYERS CARE?

1. **Reduced Medical Expenses**
Avoiding a single ER visit would save enough money to pay for an entire years membership!
2. **Reduced Absenteeism**
Small business owners and employees have access to FNP 24/7 via phone, e-mail or text.
3. **Reduced Loss of Opportunity Costs**
We can have your employee back to work ASAP with reduced waiting and same/next day visits for acute illnesses.
4. **Value**
Saving you time and money!
5. **Attracting and retaining talent**
When your business offers benefits above and beyond the competition, you hold the advantage to attract and keep the best employees!
